The Northcentral and Northwest Regions of WAPC present:

**The Perinatal Symposium**

Monday, July 17, 2017, from 9:00 a.m.-4:30 p.m.

at

**Chippewa Retreat Resort**, 13029 Deer Park Road, Manitowish Waters, WI

---

**ABOUT THIS SYMPOSIUM**
The Wisconsin Association for Perinatal Care Northwest and Northcentral Regional organizations are working together to bring recognized perinatal experts from across Wisconsin to address pertinent and emerging perinatal issues. Symposium attendees enjoy the benefits of learning from multidisciplinary presenters and colleagues who share a common goal—healthy women, infants, and their families.

**PURPOSE**
The purpose of this symposium is to provide information about advances in perinatal care for all who have an interest in perinatal health.

**INTENDED AUDIENCE**
This symposium is for everyone who shares an interest in the health of women, infants, and their families—physicians, nurses, public health personnel, social workers, pharmacists, dieticians, therapists, consumers, midwives, administrators, and educators.

---

**CONTINUING EDUCATION**
The Wisconsin Association for Perinatal Care is accredited by the Wisconsin Medical Society to provide continuing medical education for physicians.
The Wisconsin Association for Perinatal Care designates this live activity for a maximum of 6.0 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Wisconsin Association for Perinatal Care is an approved provider of continuing nursing education by the Wisconsin Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.

This program meets the criteria for a maximum of 6.0 contact hours.

**ACKNOWLEDGEMENTS**
This symposium is made possible because of a collaborative relationship between the Wisconsin Association for Perinatal Care and the WAPC Northcentral and Northwest Regional Organizations.
Perinatal Symposium Agenda

9:00-10:00 a.m. – Developmental Care of the Late Preterm Infant
Jennifer Kowalski, PT, CIMI, NTMTC, Physical Therapist, Aspirus Wausau Hospital, Wausau, WI
Linda C. Hurt, MOT/OTR, SIPT certified, CIMI, Occupational Therapist, Aspirus Wausau Hospital, Wausau, WI

At the conclusion of this presentation, you will be able to:
- Verbalize five of the seven sensory systems and how they relate to the late preterm infant.
- Identify three potential developmental outcomes of the late preterm infant.
- Recognize five coping signals and five stress signs of the late preterm infant.

10:00-11:00 a.m. – Collaboration Among Physicians/Nursing to Provide Low-Intervention Birth Journey in Hospital Setting
Aistis Tumas, MD, Family Physician, St. Luke’s - Chequamegon Clinic, Ashland, WI
Maria Green, MSN, RNC-OB, CNS, C-EFM, Family Birthplace of MMC Manager, Family Birthplace of Memorial Medical Center, Ashland, WI

At the conclusion of this presentation, you will be able to:
- Describe the importance of collaboration within team-based care to function optimally by building respectful relationships and a shared vision.
- Describe opportunities, rewards, and challenges for implementation as physician and nurse team members.
- Describe guiding principles of teamed-based care in providing patients a low intervention birth in a hospital setting.

11:00-11:15 a.m. – Break

11:15 a.m. – 12:15 p.m. – Opiates in Pregnancy and NAS
Sarah Walder, RN, MSN, APNP, NNP-BC, Aspirus Wausau Hospital, Wausau, WI

At the conclusion of this presentation, you will be able to:
- Apply the Finnegan scoring tool to more objectively assess infants at risk for NAS.
- Identify 3 non-pharmacologic and 2 pharmacologic strategies that can be implemented to reduce the symptoms of NAS.

12:15-1:00 p.m. – Lunch and Networking

1:00-2:00 p.m. – Cord Clamping
Dennis T. Costakos, MD, Physician, Neonatologist, and Faculty, Mayo Clinic College of Medicine, Mayo Clinic - La Crosse campus, La Crosse, WI

At the conclusion of this presentation, you will be able to:
- Explain ACOG guidelines concerning best practice for timing of umbilical cord clamping.
- Explain how other organizations define optimal timing of cord clamping.

2:00-3:00 p.m. – How to Develop a Simulation Program for a High Risk and Low Volume Rural Hospital
Maria Green, MSN, RNC-OB, CNS, C-EFM, Family Birthplace of MMC Manager, Family Birthplace of Memorial Medical Center, Ashland, WI

At the conclusion of this presentation, you will be able to:
- Describe how to build a simulation team with limited resources and tools.
- Explain role clarity and how to build team expertise and conduct structured multidisciplinary drills and simulation.
- Recognize how to maximize the number of health care providers (nursing and delivering staff) who attend a delivery to leverage and maintain available experience for all healthcare providers.
**Perinatal Symposium Agenda continued:**

**3:00-3:15 p.m. – Break**

**3:15-4:15 p.m. – OB Hemorrhage**

*TBD*

At the conclusion of this presentation, you will be able to:

- Define obstetric hemorrhage.
- Describe two approaches for managing obstetric hemorrhage.

**4:15-4:30 p.m. – Additional questions and wrap up**

---
